Programs for kids of all ages!

The Aquatics Division operates the Department's 59 year-round and seasonal swimming pools, including five pools located at Department camping sites. In addition, Aquatics operates 10 lakes and Cabrillo Beach. Year-round pools offer afternoon and evening sessions and operate throughout the year. Seasonal pools are open from the beginning of summer through Labor Day.

Water Awareness: This program is based on American Red Cross standards. Classes include water safety for beginners to adults, group and private swimming lessons, and parent/child classes.

Adaptive Swimming: This program helps participants with mental or physical disabilities learn and improve skills, maintain and increase physical fitness, achieve success, receive recognition and experience self-actualization in an aquatic setting. The Special Olympics program is designed for those who want to train and compete in Special Olympics events.

Team Sports: novice programs in swimming, diving, inner tube water polo and synchronized swimming are available throughout the summer season. Intermediate United States Swimming (U.S.S.) programs are available at year round facilities. Participants compete against teams from other local pools and have the opportunity to advance to regional meets against teams from throughout Southern California.

Exercise: Low to high intensity workouts that promote cardiovascular fitness, as well as conditioning, increased flexibility and range of motion are offered at select facilities throughout the City. Classes include aquacise, flex-stretch, woggle work and zero-impact.

Recreational Swimming: Open swimming is available for anyone. Pools offer times for lap and public swimming. Individuals and families are encouraged to join in the fun.

Unique Aquatics Activities include small craft programs like kayaking and sailing.

New Job Skills and Opportunities: The Junior Lifeguard Program is designed to teach children ages 10 to 17 basic water safety, skin diving, CPR, first aid and small craft skills.
